# PERSONAL PORTFOLIO

Date of Submission: 13.05.2025

## OBJECTIVES:

- ❖ The primary objective of this personal portfolio project is to create a professional, interactive, and visually appealing web-based platform that showcases my personal, academic, and professional background. This portfolio serves as a digital representation of who I am, highlighting my skills, projects, achievements, and contact information in a structured and user-friendly format. In an increasingly digital world, having an online presence is crucial not only for networking but also for establishing credibility and demonstrating one's capabilities to potential employers, collaborators, or clients. The goal of this project is not only to exhibit my technical proficiency in front-end web development but also to practice core concepts such as responsive design.
- ❖ The portfolio is designed using standard web technologies including HTML, CSS, and JavaScript, and emphasizes mobile responsiveness to ensure accessibility across devices. Ultimately, the project seeks to reflect my personality, creativity, and growth as a developer. It is not just a website but a digital narrative of my journey, learnings, and ambitions. Through this portfolio, I aim to make a strong impression on recruiters, mentors, and fellow professionals, while also using it as a living document that evolves with my career.

## **TECHNOLOGY STACK:**

### **1. Frontend Development:**

- **Languages :** HTML, CSS, JavaScript
- **Frameworks & Libraries:** Bootstrap

### **2. Backend Development:**

- **Database:** MongoDB (Non-Relational Database)

## **MODULE DESCRIPTION:**

- Home page
- Resume page
- DOM Bill Calculator
- Contact page
- Login module
- Registration page

## **ADVANTAGES:**

- Professional Online Presence
- Showcase of Skills and Projects
- Improved Visibility and Reach
- Continuous Growth and Personal Branding

<h4>Mohammed Yunus A</h4>

<h5>email:yunus172006@gmail.com</h5>

<h5>Fresher</h5>

<hr>

<body style="background-color: lightblue;">

<h3>Education</h3>

<ul>

<li>Bachelor of IT(pursuing)</li>

<li>Schooling done in vijay vidhyalaya</li>

</ul>

<h3>Skills</h3>

<ol>

<li>Python</li>

<li>C</li>

<li>Frontend Developer </li>

<li>UI/UX designer</li>

</ol>

<h3>Area Of Interest</h3>

<p style="color: rgb(83, 48, 2);"> My areas of interest include data science, machine learning,
and artificial intelligence, where I focus on developing innovative solutions to solve real-world
problems through data-driven insights.</p>
```

### Certifications

- Matlab Onramp
- Basics of Python
- R programming

### Extra curricular activities

Participated in Ideathon conducted in our college and got selected for the proof of concept round. Won 1st prize in SIH (Smart India Hackathon). Paper presented in PSG college of Engineering and got 1st prize on the topic of Witness of Artificial Intelligence..

### Projects

- [Library Management system using Database](https://github.com/fineanmol/Hacktoberfest2024)
- [Bus Management system using Microcontroller](https://github.com/fineanmol/Hacktoberfest2024)
